1. Project Overview

Description:

The project was developed for Hasouba Laptop Store to strengthen its presence on social media and attract more potential customers. The campaign focused on presenting laptops in a simple and engaging way while helping customers choose the right device based on their needs.

Objective:

To increase brand awareness, reach potential laptop buyers, and generate more customer inquiries through social media platforms.

Scope of Work:

The project included defining the target audience, developing a social media content strategy, creating promotional content ideas, preparing advertising concepts, and planning the campaign communication.

2. Key Achievements

- Defined the main target audience, including university students and young professionals looking to purchase laptops.
- Developed content ideas that focus on laptop features, prices, and the benefits of choosing the right device.
- Created a consistent communication style for the brand across its social media content.

3. Feedback Received

Client Feedback:

- The client was satisfied with the overall campaign idea and content direction.
- The client liked the focus on customers' needs rather than only presenting product specifications.

Response to Feedback:

- Adjusted the content to focus more on common customer problems when choosing a laptop.
- Simplified the promotional messages to make the offers easier for customers to understand.

5. Suggestions for Future Work

Recommendations:

- Continue creating content based on common customer questions and laptop-buying problems.
- Run targeted social media advertising campaigns to reach potential customers.
- Review campaign performance regularly and improve the content based on audience engagement and customer inquiries.

6. Closing Remarks

Thank you for the opportunity to work on this project. I appreciate the collaboration and support throughout the project.

I look forward to the possibility of working together again on future marketing projects.
