Digital Marketing Strategy for Hasouba

A practical, customer-focused approach to building online growth.

01 Introduce Yourself

Hello everyone, my name is Sohail Yasser. I am a medical student interested in digital marketing.

02 Project Objective

Build a simple and effective digital marketing plan that increases awareness, reaches the right customers, and improves engagement.

03 Presentation Agenda

Target Audience & Market Analysis → Digital Marketing Strategy → Content Creation & Performance Measurement

From Research to Measurable Results

01 Project Objective

Develop a digital marketing strategy for Hasouba, a business selling laptops, PCs, and accessories. Goals: increase brand awareness, reach the right audience, create useful content, and increase customer interaction.

02 Stage 1 – Research & Target Audience

Identify target customers and understand their needs, interests, problems, and buying behavior. Examples include students, engineers, programmers, gamers, and employees.

03 Stage 2 – Strategy & Content Creation

Choose suitable platforms such as Instagram, TikTok, Facebook, and LinkedIn. Create educational posts, short videos, product recommendations, and problem-solving content.

04 Stage 3 – Launch & Measurement

Publish the content and measure reach, views, engagement, clicks, and customer responses to improve the strategy.

Client Q&A & Feedback

01 Client Question

“Why should Hasouba invest in digital marketing instead of relying only on traditional advertising?”

02 Our Answer

Digital marketing gives Hasouba a targeted and measurable way to reach customer groups based on their interests and needs. It is also easier to improve using performance data.

03 Ask for Feedback

“Do you have any feedback on the proposed strategy, target audience, or content plan? Is there anything you would like us to change or improve?”

04 Purpose

Listen to the client, adjust the plan, validate the direction, and then move to implementation.

Key Takeaways & Next Step

01 Know the Audience

Understand the target audience and their needs.

02 Build the Strategy

Create an effective digital marketing strategy using suitable platforms and content.

03 Measure & Improve

Track performance and continuously improve the strategy based on the results.

04 Next Step

Implement the plan, publish the content, collect performance data, analyze the results, and make the necessary improvements.

Thank you for your time and attention.
